Section 4 fishable area

Section 4 is one of the more varied stretches of the Bristol Avon controlled by Chippenham Angling Club. It includes shallower, faster runs as well as deeper pools, making it well suited to both float and feeder fishing.

What you can catch

The club lists the main species as:

Roach, Dace, Chub, Bream, Perch, Occasional Barbel

This section offers a better chance of barbel and dace than the lower sections, while still producing good bags of roach and quality chub.

Pole fishing

Section 4 is excellent for the pole, particularly in steadier glides.

Best baits
Red maggot
White maggot
Caster
Hemp
Worm (excellent for perch and chub)
Sweetcorn for larger fish
Float fishing

This section is particularly good for running a float through the glides.

Use:

Stick floats in faster water.
Wagglers in steadier water.

Loose-feed:

Maggots.
Hemp and caster.

Target:

Roach.
Dace.
Chub.
Feeder fishing

Groundbait mixed with:

Dead maggots.
Hemp.
A little sweetcorn.
